Moog Components Group Gives Support to the Community and Lend a Hand for the Stands

Blacksburg, VA – February 27, 2008 – Moog Components Group is continuing its support of the local community by making a \$20,000 contribution to the Blacksburg High School Stadium Fundraising Campaign. Moog is the largest manufacturer in Blacksburg, Virginia, with over 1,000 employees locally, and a leading motion technology company worldwide. The company designs and manufactures slip rings, high performance motors and fiber optic components.

One of Moog's business objectives is to be a responsible corporate citizen, supporting its communities in various educational, environmental and cultural activities. "The community and its people are important to our business," states Larry Ball, President. "Our business brings many opportunities to Blacksburg and the New River Valley, and we want to be a partner in supporting our community's growth and development."

Moog Components Group works closely in other community areas by supporting The United Way, American Red Cross, Economic Development, Chamber of Commerce, local schools and various non-profit organizations. "Moog's employees have a variety of skills and expertise that allow the company to compete globally," adds Bob Sterrett, Director of Human Resources. "Our employees are highly trained and dedicated to working together in a team environment. The community is important to our employees, and many of them contribute their time to improving it. As our company grows, we are looking for individuals who want to be part of a successful business."

Moog Components Group Gives Support to the Community and Lend a Hand for the Stands

With business roots firmly established in the New River Valley, the Moog business (formerly known as Poly-Scientific and Electro-Tec) has operated in Blacksburg since the early 1950s. Today, this business has sales of over \$300 million with three locations in Blacksburg, one in Christiansburg and additional sites in North America and Europe.

Moog

Moog Components Group is a business unit of Moog Inc. and designs and manufactures innovative motion control and fiber optic components for industrial, medical, marine, aerospace and defense applications.

Moog Inc. is a worldwide designer, manufacturer and integrator of precision control components and systems. Moog's high performance systems control military and commercial aircraft, satellites and space vehicles, launch vehicles, missiles, automated industrial machinery, marine and medical equipment.

Blacksburg High School Stadium Fundraising Campaign

The Blacksburg High School Booster Club, a group of parent, faculty and community volunteers, initiated a campaign to raise an additional \$1.2 million through local donations for stadium enhancement to the Montgomery County School's Bill Brown Stadium complex that is currently underway. Pledges and donations to the BHS Stadium Campaign total \$550,000 to date.
